

# SOLAR MAVERICKS

Solar Mavericks Powering Europe's Road Works and Construction Sites

Many working areas are uncertainly illuminated at night, because of empty batteries there is an increased risk of accident. With Solar Warning Lights you full fill your obligation for security in working areas easily. You avoid accidents and claims of liability. The Solar Powered Warning Light is designed very similar to the well known, only battery operated, warning lights. At rain the vaulted solar panel cleans itself.

- Solar Powered Service & Maintenance free operation for up to 5 years
- Base Marine Grade Alloy Polycarbonate Lens
- Stainless Steel Hardware
- State of the Art Photovoltaic Technology and Design
- Automatic Operation -connect it and forget about it!
- High Efficiency Circuitry Design throughout maximize optimum light intensity
- Renewable Energy - no service or battery disposal costs!
- LED's 50,000 Hours operation life / No bulb replacement!
- The Alternative for A/C or D/C Battery Powered Beacons
- Weatherproof
